## Playing in the Leaves

Here's a trio of lace leaf designs to delight anyone and everyone. I chose autumn colors in memory of the piles of leaves I loved to jump into.

Maybe you and I don't jump into piles of leaves now, but undoubtedly you'll enjoy making a whole pile of these knitted leaves to play in!

Included are an Aspen Leaf in trellis lace with serrated edging, a 5-point increase Maple Leaf, and an Oak Leaf with an interesting lace edging construction built around the I-cord stem.
